

Parker ALIGN™

Multi-Gas Generator

Introducing the **NEW Parker ALIGN™** Multi-Gas Generator featuring state-of-the-art variable frequency compressor that provides energy savings along with reduced heat and quiet operation. It's compact design fits under a bench and supplies the highest quality, LCMS-grade nitrogen, dry air and zero air available today.

Parker Laboratory Gas Generators are world renowned for their reliability, purity, long life and are the standard choice for LCMS, GC, and other major instruments requiring the highest purity gases. Built using Parker's patented core technologies that are only available in our gas generators, they produce gas purity levels that are the highest in the industry.

Product Features:

- Whisper Quiet Operation
- Most Energy Efficient Product Available
- Meets Stringent Gas Quality Specification ISO 8573-1 Class 1.2.1
- Variable Frequency Drive (VFD) Technology
Saves up to 30% Utility!
- Fits Easily Under Benches
- Easy Access to Service Components
- IEC, UL, CSA, CRN and CE certified
- Made in the USA

ENGINEERING YOUR SUCCESS.
